## BEJJ: Jiu-Jitsu Game

At Smash Mountain Studio we have a different idea for "Fighting": it isn't about brute force or technique. Fatigue and strategy are key elements. In addition, not always it is a question of life and death or KOs; you can win by points or submission. With this in mind, we are developing the "BE" Games for martial arts enthusiasts. We've started with BEJJ, a pioneer game for a large community with a pent-up demand for a +dedicated game. UFC was created to show the world that Brazilian Jiu-Jitsu was the most efficient Martial Art. This addition of the community and its lifestyle boost User Acquisition. This game is the spine for the "BE" Games which will explore the created original Card-Battle Mechanics. Its Design allows people not yet familiar with Martial Arts to learn or better understand some of them as they play through the animations. Experienced Martial Artists can have a great experience identifying elements from the real sports. However, the focus is on PVP and Esport. We are refactoring for WEB 3.0.

## Snookey

Snookey is something different. Try your best to make your highest score in this original game. It mixes snooker mechanics with air hockey mechanics and it adds a bunch of cool elements to entertain you. Your objective is to score by hitting the balls inside the opposite pockets. If they get inside your side pockets, then score is subtracted. To take a shot, wait until balls hit your wall and take action before they pass midfield. Watch out for obstacles and debuffers that will make your life difficult. Snookey has no end if you manage to keep going!

## No Place for Bravery

No Place for Bravery is a 2D Top-Down Action RPG that uses the most striking features of its genre as a background to tell a story about rampant violence and parental abandonment. The player will control Thorn, an old warrior lost in his ambitions who will travel the world in search of his lost daughter. In addition to the high quality visuals, coupled with intense combat moments, the player will be subtly put in increasingly intense moral dilemmas that he will have to deal with. These conflicts will lead to four possible endings, each demonstrating how far Thorn and the player went to achieve what they wanted.
